Benefit

Prevention of Cross Infection

Studies have shown harmful bacteria exists on traditional reusable plastic and stainless steel products after disinfection. Single-use disposable system of human waste management is the reliable and cost effective way to dispose of human waste.

Medical Pulp helps:

- Minimizing risk of Cross Infection
- Improving patient, nurse and healthcare worker's safety

Lower the environmental impact

Ensuring products are as environmentally friendly as possible, all our medical pulp products are made of 100% recycled paper. Here are the Key Features:

- Durable and clean
- Biodegradable
- non-toxic
- Ergonomically shaped
- No bleach colouring
- Water resistance for up to 4 hours

Save nursing time and improve work conditions

With single-use disposable system, the Nursing staff can focus on key objectives of healthcare and patient's need, instead of spending time on disinfection of reusable medical pulp.

- Save nursing time
- Increased work satisfaction
- Deliver a better patient experience

Cost effective

Significant financial benefits come from reducing nursing cost and cleaning cost. Medical pulp also brings the following economic advantages:

- Reduced electricity costs
- Reduce cost of nurse time
- Reduce potential costs of Hospital Insurance
- Deliver a better patient experience

LINERS

Bedpan liners

- Disposable for prevention of cross-contamination infections.
- Suitable to be used for carrying liquids or easily fit on a commode chair, bedpan holders and supports.
- One size fits to all.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-01 DP-01C
 Capacity: 2000ml
 Material: Paper Pulp (100% newsprint paper)
 Product Size: 355(L) X 285(B) X 100(H) mm
 Weight: 65g
 Fluid Resistance: Compatible with British Standard: PAS29:1999
 Fluid Tested: Water
 Resistance Time: >4 Hours
 Resistance Temp: 35°C ± 3°C
 Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 100
 Carton Dimensions: 355 X 290 X 410mm
 Quantity in a 20 GP (Carton): 625
 Quantity in a 40 GP (Carton): 1250
 Quantity in a 40 HQ (Carton): 1500

LINERS

Commode Pan Liner

- Disposable for prevention of cross-contamination infections.
- Specifically used in conjunction with a commode pan support.
- One size fits to all.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-02
Capacity: 1700ml
Material: Paper Pulp (100% newsprint paper)
Product Size: 270(D) X 100(H) mm
Weight: 45g
Fluid Resistance: Compatible with British Standard: PAS29:1999
Fluid Tested: Water
Resistance Time: >4 Hours
Resistance Temp: 35°C ± 3°C
Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 200
Carton Dimensions: 580 X 275 X 535mm
Quantity in a 20 GP (Carton): 310
Quantity in a 40 GP (Carton): 620
Quantity in a 40 HQ (Carton): 725

LINERS

Midi Slipper Pan Liner

- Disposable for prevention of cross-contamination infections.
- Specifically used in conjunction with a slipper pan support.
- Suitable for bed bound patients
- One size fits to all.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-03
 Capacity: 1300ml
 Material: Paper Pulp (100% newsprint paper)
 Product Size: 350(L) X 310(B) X 85(H) mm
 Weight: 55g
 Fluid Resistance: Compatible with British Standard: PAS29:1999
 Fluid Tested: Water
 Resistance Time: >4 Hours
 Resistance Temp: 35°C ± 3°C
 Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 100
 Carton Dimensions: 345 X 310 X 410mm
 Quantity in a 20 GP (Carton): 590
 Quantity in a 40 GP (Carton): 1180
 Quantity in a 40 HQ (Carton): 1390

LINERS

Maxi Slipper Pan Liner

- Disposable for prevention of cross-contamination infections.
- Specifically used in conjunction with a slipper pan support.
- Suitable for bed-bound patients
- One size fits to all.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-04
Capacity: 2000ml
Material: Paper Pulp (100% newsprint paper)
Product Size: 390(L) X 315(B) X 100(H) mm
Weight: 65g
Fluid Resistance: Compatible with British Standard: PAS29:1999
Fluid Tested: Water
Resistance Time: >4 Hours
Resistance Temp: 35°C ± 3°C
Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 100
Carton Dimensions: 410 X 320 X 470mm
Quantity in a 20 GP (Carton): 450
Quantity in a 40 GP (Carton): 900
Quantity in a 40 HQ (Carton): 1080

URINALS

Round Male Urinal Bottle

- Disposable for prevention of cross-contamination infections.
- Ergonomically shaped and smooth finish for patient comfort
- One size fits to all.
- Steady with flat bottom.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-11
Capacity: 900ml
Material: Paper Pulp (100% newsprint paper)
Product Size: 255(L) X 120(B) X 125(H) mm
Weight: 50g
Fluid Resistance: Compatible with British Standard: PAS29:1999
Fluid Tested: Water
Resistance Time: >4 Hours
Resistance Temp: 35°C ± 3°C
Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 100
Carton Dimensions: 800 X 525 X 505mm
Quantity in a 20 GP (Carton): 142
Quantity in a 40 GP (Carton): 284
Quantity in a 40 HQ (Carton): 355

URINALS

Square Male Urinal Bottle

- Disposable for prevention of cross-contamination infections.
- Ergonomically shaped and smooth finish for patient comfort
- One size fits to all.
- Steady with flat bottom.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

Specification

Product Code: DP-12
Capacity: 900ml
Material: Paper Pulp (100% newsprint paper)
Product Size: 200(L) X 113(B) X 115(H) mm
Weight: 50g
Fluid Resistance: Compatible with British Standard: PAS29:1999
Fluid Tested: Water
Resistance Time: >4 Hours
Resistance Temp: 35°C ± 3°C
Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 110
Carton Dimensions: 680 X 380 X 640mm
Quantity in a 20 GP (Carton): 156
Quantity in a 40 GP (Carton): 320
Quantity in a 40 HQ (Carton): 380

URINALS

Female Urinal Bottle

- Disposable for prevention of cross-contamination infections.
- Ergonomically shaped and smooth finish for patient comfort
- One size fits to all.
- Steady with flat bottom.
- Easy carrying and holding when it is full.
- Suitable for disposal in a macerator.

 Fluid Tested: Water
 Resistance Time: >4 Hours
 Resistance Temp: 35°C ± 3°C
 Disposability: By maceration in accordance with PAS29:1999

Packaging

Units Per Carton: 100
 Carton Dimensions: 290 X 290 X 660mm
 Quantity in a 20 GP (Carton): 450
 Quantity in a 40 GP (Carton): 900
 Quantity in a 40 HQ (Carton): 1065

DISHS

Kidney Dish

- Disposable for prevention of cross-contamination infections.
- Multi-purpose - can be used for carrying instruments and dressings.
- Easy carrying and holding when it is full.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Suitable for disposal in a macerator.

Specification

Product Code:	DP-31
Capacity:	700ml
Material:	Paper Pulp (100% newsprint paper)
Product Size:	260(L) X 147(B) X 50(H) mm
Weight:	25g
Fluid Resistance:	Compatible with British Standard: PAS29:1999
Fluid Tested:	Water
Resistance Time:	>4 Hours
Resistance Temp:	35°C ± 3°C
Disposability:	By maceration in accordance with PAS29:1999

Packaging

Units Per Carton:	300
Carton Dimensions:	450 X 260 X 300mm
Quantity in a 20 GP (Carton):	815
Quantity in a 40 GP (Carton):	1630
Quantity in a 40 HQ (Carton):	1900

DISHS

CS Receiver

- Disposable for prevention of cross-contamination infections.
- Multi-purpose - can be used for carrying instruments and dressings.
- Larger Capacity compare with Kidney dish.
- Easy carrying and holding when it is full.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Suitable for disposal in a macerator.

Specification

Product Code:	DP-32
Capacity:	900ml
Material:	Paper Pulp (100% newsprint paper)
Product Size:	280(L) X 165(B) X 45(H) mm
Weight:	40g
Fluid Resistance:	Compatible with British Standard: PAS29:1999
Fluid Tested:	Water
Resistance Time:	>4 Hours
Resistance Temp:	35°C ± 3°C
Disposability:	By maceration in accordance with PAS29:1999

Packaging

Units Per Carton:	300
Carton Dimensions:	490 X 265 X 795mm
Quantity in a 20 GP (Carton):	270
Quantity in a 40 GP (Carton):	540
Quantity in a 40 HQ (Carton):	630

DISHS

Autoclave Tray

- Disposable for prevention of cross-contamination infections.
- Multi-purpose - can be used for carrying instruments and dressings.
- Easy carrying and holding when it is full.
- Steady with flat bottom.
- Stackable design - easy to store and separate.
- Suitable for disposal in a macerator.
